Jr. High Teenager-Parent Problem Panel Planned at 'Y'

Activities for Junior high school youngsters will be the topic of the Junior High Round-table at the YMCA and plans are being made for a panel discussion for adults and the teenagers to be held in the near future.

Future programs for parents will consist of a meeting of the Roundtable on Thursday at the YMCA, and all parents of members of the Junior High Y-H-Y and Y-H-Y clubs are invited to this meeting at 10 p.m. on Thursday.

Mrs. Bonnie Fuller, program director, said more parents participate in the program.

Thereafter and a decree in favor of petitioners taking said land. Efforts to serve notice on Kronsheim included mailing a published legal notice to him at 2406 N. Main, and leaving a copy of the notice with his mother at that address.

Legal Phase Overlaid.

A technically entered the picture with the court finding that "absence of eight words made the notice by publication 'fatally defective'."

The affidavit said that "on due inquiry (defendants) cannot find out his present place of residence is unknown . . . and cannot be ascertained . . . and appeal judges have ruled that the statement also should have included the phrase, 'so that process cannot be served upon him.'"

For a non-resident of Illinois, it would have been unnecessary to say "that he could not be served with process, the courts held. But Kronsheim, spending part of his time away from here in Illinois and part in California—contends he has been in Illinois at the time of the condemnation, residing in Chicago. Thus, the phrase should have been included, and its omission is called unacceptable."

Another technically relates to the language of the notification. It is on behalf of Harold W. Kronsheim, J. C. Steele, A. J. the firm, he said he legally represented Kronsheim.

The school district alleges that "in various other transactions involving an attorney-client relationship up until the filing of this present notice by Harold W. Kronsheim, J. C. Steele has at all times represented Kronsheim in all these matters, and that until the present litigation has any other attorney at any time been involved in these proceedings. But the court agreed with Kronsheim's contention that the attorney had no authority to speak for him."

Settlement With Trust.

The school district also asserted that payment to the Kronsheim trust constituted appropriate compensation to the heirs, but the court found "no merit" in this belief. Property and non-property held under the trust would go to Kronsheim upon the death of his mother, however.

In essence, the school system argues that it was not necessary for the court hearing the case to determine to "quote jurisdiction" over Kronsheim, but that all necessary steps to accomplish this were taken, anyway.

Until now, partly due to technical interpretations, the courts disagree on both points, ruling that jurisdiction was required but was not achieved.

County Judge Michael Kennedy cited evidence that a certificate of publication was mailed to Mrs. Clemens in Union City, Mo., but no indication that a certificate was mailed to Kronsheim.

Claims Awareness of Law.

Judge did not error in the number of weeks of publication was detected and corrected by the late school surveyor, Harry Falkner, the school system takes the position that mailing of the certificate to Mrs. Clemens indicates Falkner's knowledge of

disposition is being sought for the publication on the grounds of the parents' families, homes, schools and communities.

At last week's meeting of the YMCA Junior High Program committee, introduced the next of committee members, Mr. Boyd Wolverton, who also was a guest speaker whose topic was based on the importance of religion to the teenagers' lives. Mrs. Wolverton is the wife of the pastor of the First Assembly of God Church.

The session was conducted by C. E. MacMillan, secretary of the

Continue Talks in Water Co. Strike

Negotiation meetings between the East St. Louis & Interurban Water Co. and representatives of the International Hodcarriers Union are continuing in an effort to settle a strike of 10 laborers employed by the Granite City office of the water company. E. C. Smith, district manager, said today.

The strike began in November when negotiations failed. An agreement on a new contract, Smith said, the major issues involved are higher wage rights. A union spokesman said other issues also are involved. Smith said today that an agreement had not yet been reached but that negotiations were continuing. Negotiations had been broken off several months before they resumed lately.

Nine-Scooter Fleet Now In Use at Hospital Here

St. Elizabeth Hospital now has a full fleet of nine motorized scooters.

They were placed into use last week after being blessed by Rev. David Mann, hospital chaplain.

The local hospital is one of the first to initiate a scooter system as a time-saving device. The idea was suggested by Robert Edmonds, outgoing chairman of the hospital's lay advisory board, and an experimental model proved to be successful.

The hospital administration has adopted a set of rules and regulations for traffic safety, and speeds are limited by governors on the vehicles.

However, patients and visitors are experiencing a slight inconvenience in most of the country as they watch sisters, nurses and doctors go zipping along the halls. Not only time is saved but energy and wear and tear on the floor.

Seven of the scooters contributed by the hospital to an anonymous donor for the pediatric department, and the hospital radiologist purchased one as a Christmas present to the x-ray department.

Two of them are in use on the first floor, two on the second floor, one on the third floor, one on the fourth floor, one for use from the emergency room to central supply, one for the administrative department and one for the x-ray department. The original demonstrator model has been returned to the supplier.

FUMBLING THE BALL momentarily, Venice's Jerome McCarty stole the ball from the Eagles' basket during the first on Saturday night. He recovered his balance, however, and scored despite the efforts of Livingston's Terry Wray (35) and Ivan Booth (31).

Brawl Entitled Game

Venice Wins 78-60, Stays in MCM Race

High school basketball turned into the Friday night brawl—momentarily anyway—but Venice emerged as the "winning" and the Red Devils' "chill" champions.

The host Devils outplayed the Livingston Eagles 78-60 in a basketball game in the Madison-Macoupin Conference's championship game. The unscripted boxing match, as in most athletic brawls, was a draw.

The fight broke out at mid-court with 3:17 left in the game. Initial participants were Jerome McCarty of Venice and Jim Denny of Livingston. Others joined in before cooler heads stopped the swinging affair. The brief incident climaxed a long series of elbow digging and poking; few blows landed and there were no injuries.

The main item, of course, was basketball and coach Bill Ohlenhoff was encouraged by one of the better performances by his Red Devils.

Bunker Hill Hero
Venice had started the 1965 schedule, after a long holiday layoff, by losing to Breese 20-47. But the Devils were on the team Friday night as they hit 35 of 71 field goal attempts and led most of the way.

The victory upped the locals' MCM record to 2-1 and leaves them one game behind leading Breese 4-1. Bunker Hill's Minutemen, with a 3-2 league mark after losing to Breese 77-71 Friday, visit the Red Devils tomorrow night in another important contest.

Rich Gets Outside
Ohlenhoff moved Jackson from under the basket to an outside spot and was well-pleased with the results. The change gives Jackson more opportunity to use his accurate jump shots and gives Dillon more operating room under the basket.

Rich Essington was also in double figures with 12 points on five fielders and two foul shots.

EN ROUTE TO A 4-3 DECISION, Granite City 154-pounder Dean Jones (left) wrestles Lockport's James Austin in Saturday's quadrangular meet. Jones took third place with the victory, helping the Warriors win by a point.

GC Wrestlers Edge Carl Sandburg On Evenden's Pin in Last Seconds

A pin in the final five seconds of the Granite City high school wrestlers' one-point victory in a quadrangular meet here Saturday afternoon.

Heavyweight John Evenden, using a half-nelson, pinned Carl Sandburg's Ben Apel with 5:55 gone in this bout, giving the Warriors an 88-87 edge over the Orland Park school.

Point was thied with 75 points and Lockport finished last with 59. It was the third straight victory for Granite City in the rotating quadrangular with the three upstate teams.

With 15 seconds left, Evenden and Apel were tied 2-2 and the Granite City was on the bottom. But Evenden made a reversal and finished the bout, clinching the victory. A win by decision would have resulted in a tie between the Warriors and the Eagles.

Couch Bill "Red" Schmitt's team had five individual champions, highest in the three years of the quad. Others were 180-pounder Gary Forshee, 120-

Granite City 154-pounder Dean Jones, 150-pounder Bill Fuchs, 140-pounder Steve Cavanaugh and 95-pounder Bill Fuchs.

The Warriors won three bouts by pins, all against Carl Sandburg, the Orland Park team had one pin, a 2-1 tie.

There were eight pins in the meet. Last year, GCHS edged Sandburg 92-80.

In a dual meet, Friday night, the Warriors overwhelmed Western Military Academy at Alton 51-33. They visit St. Louis O'Fallon Tech tomorrow afternoon.

Warriors Play Giant Midgets

Freeburg's Midgets, first opponent for Granite City high school in the Dupe Invitational basketball tournament, are not what their team nickname indicates.

The Midgets are well-equipped with giants—namely, 6-7 Jim Bush and 6-5 Larry Wetzel. They give the Cahokia Conference team a height advantage over the Warriors' tallest regulars, 6-4 Terry Moore, 6-4 Vito Kambarian and 6-2 Joe Grobowski.

But height doesn't clinch a team's effectiveness, as the Midgets' 5-7 worst record indicates. Freeburg defeated Vainover, Lebanon, Columbia, Chester and Waterloo but lost to Mascoutah (twice), New Athens, Waterloo, Dupe, Belleville and Nashville.

Belleville is the only common opponent, with Margets defeating the Midgets 79-50 and the Warriors 62-58—after a hard fight. Coach Doug Proctor will team his two tall men with 6-1 John Kumper, 5-11 Larry Garland and 5-9 Roger Groh. Bush and Kumper are the big scoring threats with per-game averages of about 20 and 15 points, respectively.

That flirtation with victory against Belleville is typical of the frustrations experienced by GCHS coach Andy Sullivan in his 3-8 season. His team has within a whisker's breadth of beating Belleville, Collinsville, Pekin and Alton, but failed each time.

The Warriors, however, have shown more talent than pre-season evaluations indicated. Rapid development of sophomore Moore and senior Grobowski, cut from the squad in his junior season, and others has helped.

The Warriors and Midgets meet at 7 p.m. Wednesday in the third game of the 18th annual meet. If the Warriors win, they'll play the Belleville Alton-Dupo winner at 8:30 p.m. Friday; if they lose, they'll meet that game's loser at 7 p.m. Friday.

Belleville Township, with a 7-7 record, ranks as the tourney favorite. The Maroons open tomorrow night against Rock Island 48-71. The second game matches Jerseyville and O'Fallon (2-10). Althoff has a 5-6 record and Dupe stands 7-5.

Motorist Who Hit 2 Cars Faces 2 Charges in Venice

Charges of leaving the scene of a crash and operating a motor vehicle without a driver's license were placed against a motorist who crashed into two cars on a short distance from the 200 block of Weaver street where two autos were damaged. Police said Woods' northbound auto hit a parked car with license issued to Leon Monk, 1203 Market street, and then hit an oncoming auto driven by Cecil Matlet, 1037 Calhoun street.

Pontoon Village Stalls Decision on Nameoki Twp. Sewers

Another three-weeks delay in an official commitment by the village of Pontoon Beach to participate in the Nameoki township sewer program will be disrupted a schedule for publication and adoption of sewer construction ordinances, Harry Briggs, Nameoki township supervisor, said today.

Briggs told the Press-Record "we simply will eliminate the Pontoon Beach section from the construction ordinances, reduce the bond ordinance requirements by the comparable amount and proceed with passage of ordinances as we have planned."

The situation developed after the Pontoon Beach village board failed Thursday night to take a stand for or against inclusion of the village in the township sewer plan. Such a commitment had been anticipated as the result of a meeting a month ago in which township officials spoke at a special meeting in Pontoon Beach and explained details of the sewer program. Village Board President Thomas Staiff announced then that the village would not participate in the sewer plan.

Police said Woods' northbound auto hit a parked car with license issued to Leon Monk, 1203 Market street, and then hit an oncoming auto driven by Cecil Matlet, 1037 Calhoun street.

Passage of the ordinance is set for the Feb. 1 meeting of the town board. The Feb. 1 set as the date for final publication of the adopted ordinance. Briggs said the lack of action by Pontoon Beach would mean a month's delay in the procedure for survey results and that it would be necessary to eliminate the Pontoon Beach section of the sewer plan unless a definite commitment is received before publication date for the sample ordinance.

Such action would involve revision of figures on construction and construction details, petition of the owners. The ordinance sets out that the 13.4-acre plot has a 280-foot frontage on State Route 111. The additional ground is unoccupied. The board also approved a proposal to obtain hospitalization and disability insurance policies for members of the police department under a plan recommended by Chester Dean, chairman of the police committee. Dean said the committee secured prices from several companies and recommends obtaining the policy from The Country Commercial.

Refus. Airport Meeting

In their Thursday night meeting, the Pontoon Beach board turned down a request from Thomas Foster, operator of Postaire Aviation Corp., of Lambert Field, St. Louis, for a meeting with village officials to discuss Foster's proposal for construction of a new airport in the Mitchell area. A month ago, the village board authorized Staiff to file a protest against the airport proposal with the Federal Aviation Agency, a procedure that automatically requires the FAA to set a public hearing. In a letter sent to the board Thursday night, Foster said he had met with village board members to outline his plan. He said that the village board had agreed to include a motel, swimming pool and other facilities "would enhance the area" rather than devalue property.

Staiff told the trustees that since a public hearing jointly is

guaranteed he did not believe they should conduct any discussions with Foster on an individual basis. The board voted to instruct Village Atty. William Schaeffer to write a letter to Foster that others are interested in the hearing and that it would be the best method of bringing out all the facts. The village is protesting the airport plan on grounds it would devalue property and constitute a safety hazard.

13-Acre Association

A tract of ground owned by Thomas E. and Victoria Kent was annexed to the village on petition of the owners. The ordinance sets out that the 13.4-acre plot has a 280-foot frontage on State Route 111. The additional ground is unoccupied. The board also approved a proposal to obtain hospitalization and disability insurance policies for members of the police department under a plan recommended by Chester Dean, chairman of the police committee. Dean said the committee secured prices from several companies and recommends obtaining the policy from The Country Commercial.

MORE ABOUT Venice Still

(Continued from page 1)

Lee was asked if his statement meant that Venice is still dissatisfied with the levee board proposal.

Considering Own System
"We very definitely are considering our own system," he replied. "We certainly are not satisfied with a fluctuating rate."

Macrae, on the other hand, said Saturday, following Dr. Lee's statement, that he considers the levee board's revised rates as suitable, providing Col. Linsville enters the picture and the lower rates are applied. He added, however, that he had discussed the matter with Dr. Lee since the levee board session last week and that "we have not decided definitely for or against the levee board plan. There still is a possibility we might consider our own sewer program. The best way for me to explain it," he added, "is to say that Madison will follow the plan that is most economical for its people."

Attending the hearing before the Sanitary Water Board today are Mayors Lee and Macrae, Edward Jumeau of the engineering firm of Sheppard, Morgan & Schwaab, which does engineering work for both Madison and Venice; William Ebersoldt, city clerk of Venice and a levee board trustee; Harry Hartman, Venice city attorney; John Giffith, Madison city attorney; and Jack Tolliver, Venice city engineer.

The water board called the hearing to determine the action planned not only by Venice and Madison, but also by other communities and areas that have indicated participation in the overall levee district sewer program. These include, in addition to Madison and Venice, Brooklyn National City, Fairmont City, Washington Park, Caseyville, Rosemont, Swift & Co., and St. Louis National Stockyards Co.

Other business of the Venice city council Friday night was of a routine nature. Routine bills were approved and department reports received. The next meeting will be held Friday night, Jan. 15, to put the council back on schedule.

Organizing A Family Council

By Dr. Raymond E. Troyer

Guidelines—supplied by the YMCA Community Child Guidance Center—for parents in the development of good qualities and conduct for their youngsters:

1. The family is the establishment of good relationships within a family that each member feels is a part of the family.

Usually this is not the case—unless parents work at providing a climate in which each child can feel that he is a contributing member of the group and that his services are needed to maintain a good family experience.

Giving the children a real part in the family pays off in many ways. It gives them the feeling that "this is my family" and makes them more willing to take responsibility in it. It reduces general complaining, since they feel they have been consulted about an issue.

Viewed As Individuals
A main point with family feeling is that they are today, as such procedures give the children a feeling that their parents are considering them as individuals rather than something to be exploited.

Children have the possibilities of greater maturity today than any generation has had.

If they feel that they are a real part of the family, they will gain valuable experience in learning to make decisions, in taking responsibility and in learning to handle family finances.

Value In Decisions
Possibly the best way for encouraging children in this kind of development is to assist them in organizing a family council.

There are times when parents must make decisions without the help of their children; however, if we can give them the family feeling, they will become a cooperative and smoothly functioning group.

These are some rules which have been found to be good results:

1. A certain date should be set for the council to meet each week. It is not advisable to call a meeting whenever one member wishes; nothing should be decided that it must be settled right now.

2. All members of the family are invited to participate; however, participation is not obligatory. Since the council is a family, it can be used to reach decisions he may not like, must will attempt to reach.

3. All members participate on equal footing, so each one has one vote. Everyone should be encouraged to express his ideas. However, any member who disrupts the session can be asked to leave.

to leave if this is the consensus of the others.

Rotate Chairmanship
4. The chairmanship rotates so that each member experiences this privilege and responsibility.

5. The use of parliamentary order gives each the opportunity to express himself freely and the obligation to listen to others. If a member wishes to speak, he should or impose their will on the children, the council is not democratic and fails in its purpose.

6. In the absence of a decision by the council, everyone has the right to do what he considers best, but no decision that affects others is valid unless it is approved by the council.

7. The council should not be a "workshop" for problems. It is important that the emphasis is always on what we can do, rather than on what we cannot do. Decisions made by the council are a plan for action if and when various members do not carry out what they decide at the meeting.

Wrong Decisions
8. Parents usually are afraid of wrong decisions being made by their children. However, they can be used to advantage—if the parent will let children see what will happen. At the next meeting, the children will agree on a better solution.

Once a decision has been made, any alteration has to wait for the next session. In the interim, no one should try to decide on a different course of action or to impose his decision on others.

10. The family council is the authority. No individual can lay down the law or make decisions for others. At the same time, no one person has the full responsibility for the functioning of the household.

Which Is More Important?
If parents are willing to accept the family council as a supreme authority, they do not need to feel guilty if things do not always go as they should. It is more important that the children accept their responsibility.

Instituting the family council means that the parents are fundamentally new and untired course of action has begun. Parents should be prepared for this. Children are afraid that this is another trick to make them do things they don't want to do.

At first, parents have their apprehensions. They indicate a time of rest for both body and soul (the Lord's day) and provide a remedy for the discontent and materialism that springs from selfishness.

Ignore the warning signs and you bring your own sorrow upon yourself. They often for a fuller life.

district consists of all of Madison, Greene and Jersey counties. Reopened boundaries of the 15th Senate District, including Alton, the Quad-Cities, Collinsville and Edwardsville, would exclude the incumbent senator, Paul Simon of Troy.

Simon would be in the 54th Senate District, composed of the eastern part of Madison county, the western part of Jersey county and the eastern half of St. Clair county.

The 54th Senate District would be somewhat larger than the 55th House District, taking in East St. Louis and such areas as Belleville and Centerville. Greene county would be part of the 51st Senate District, along with Calhoun, Pike, Scott, Morgan, Macoupin, Montgomery and Bond counties.

Chicago Overlap Planned
Republicans say the Illinois constitution forbids overlapping of county lines. Until now, Chicago and suburban districts also have been separate.

Democrats propose 16 House districts in the city of Chicago and eight in Chicago suburbs, with six overlapping and 29 downstate. In their Senate map, Democrats call for 16 Chicago districts, seven in the suburbs, six overlapping, one overlapping Cook and Lake counties, and 28 downstate.

Numerical total would remain 58 Senate and 59 House districts.
